

I feel that LPFM should not be given priority over FM translator service because 1. I Listen to the K-Love radio station everyday and I know many others who do also. K-love has an uplifting, family oriented program that everyone can listen to without offense. The music they play builds up my mood and keeps me focused in a positive direction. 2. I believe many people would not have access to another Christian radio station if this service is expanded. We should all be able to have access to the type of entertainment we would like to hear. 3. I believe K-love plays an important roll in helping people in the community by giving them family oriented radio, playing uplifting music, and most of all giving people hope and sharing community love.
